

Exxx: 4" and 5" Aluminum Entry Panels

Features:

- Used to provide a weatherproof cable feed-through for walls or roofs
- Use with Duct Seal or other sealant to weatherproof entry panel/wall connection
- Can also be used on interior walls for a more finished appearance
- Available with 4" and 5" port diameters
- Sealing Caps are included for all ports; replacement Caps can be purchased separately
- Use with 4" or 5" Boot Kits

Construction:

- Manufactured from heavy-gauge T6 aluminum with baked-on powder coat finish
- Stainless steel mounting hardware
